

Update – May 2024

Two-Year Post-Publication Review

As detailed in the March 2024 update, the Inquiry's Terms of Reference include a two-year post-publication review, designed to assess the extent to which the Inquiry's recommendations have been implemented by those organisations responsible.

Work has been ongoing in relation to this review in recent months. The Chair and Commissioning Body returned to Telford during March 2024 to meet key stakeholders in order better to understand the extent to which the recommendations have, or have not, been implemented. Information to support that review has continued to be gathered thereafter.

The Chair is grateful for the contributions he has received from those involved and plans to detail his findings in a further report, due to be published later this year.
